

- QP26LS31 – Quad High Speed Differential Line Driver**
QP26LS32 – Quad Differential Line Receiver
 (200mv input sensitivity over $\pm 7V$ input range)
QP26LS33 – Quad Differential Line Receiver
 (500mv input sensitivity over $\pm 15V$ input range)

General Description

The QP26LSxx family of interface products were re-engineered in a modern wafer fabrication process to replace AMD 26LSxx devices. All features of the AMD devices were duplicated; the devices are “plug and play” compatible. The circuit design and wafer fab process selected duplicates the electrical characteristics of the original devices, including parasitic performance. “Failsafe” characteristics were duplicated for the line receivers.

The QP26LSxx family is designed to meet the requirements of RS-422, RS-423, Federal Standards 1020 and 1030 for balanced and unbalanced digital data transmission.

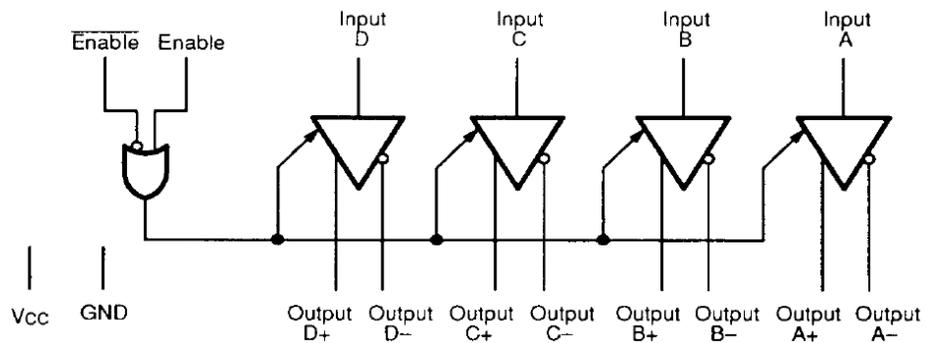

The QP26LS31 is designed to provide unipolar differential drive to twisted-pair or parallel-wire transmission lines. The device provides both enable and disable functions common to all four drivers. It features tri-state outputs and logical OR-ed complementary enable inputs. The inputs are all LS compatible and are all one unit load.

The QP26LS32 features an input sensitivity of 200mV over the input voltage range of $\pm 7V$ while the QP26LS33 features an input sensitivity of 500mV over the input voltage range of $\pm 15V$. Both provide an enable and disable function common to all four receivers. Both feature tri-state outputs with 8mA sink capability and incorporate a fail-safe input-output relationship that keeps the outputs high when the inputs are open.

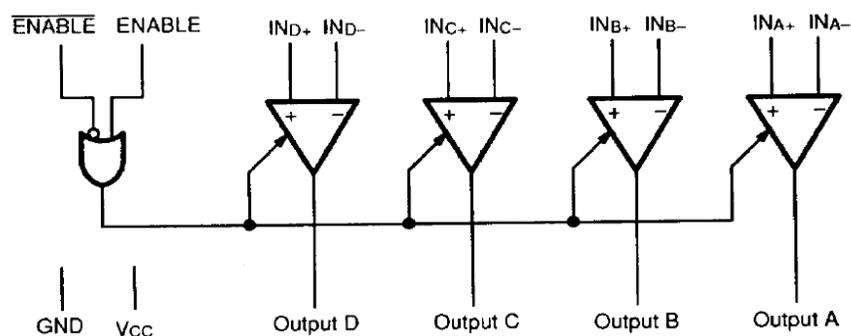

The family is constructed using Advanced Low-Power Schottky processing.

Absolute Maximum Ratings

Stresses above the AMR may cause permanent damage, extended operation at AMR may degrade performance and affect reliability

Condition	Units	Notes
26LS31		
Power Supply and Input Voltage	7.0 Volts DC	
Output Voltage	5.5 Volts DC	
Storage Temperature Range	-65 to +150 °C	
Lead Temperature (soldering, 10 seconds)	+300 °C	
Maximum Power Dissipation (P _D)	450 mW	
Junction Temperature (T _J)	+150 °C	
26LS32 and 26LS33		
Power Supply Voltage (V _{CC})	7.0 Volts DC	
Common Mode Range	±25 Volts DC	
Differential Input Voltage	±25 Volts DC	
Enable Voltage	7.0 Volts DC	
Output Sink Current	50 mA	
Storage Temperature Range	-65 to +150 °C	
Power Dissipation (P _D)	500 mW	
Lead Temperature (soldering, 10 seconds)	+300 °C	
Junction Temperature (T _J)	+150 °C	

Recommended Operating Conditions

Condition		Units	Notes
26LS31			
Supply Voltage Range (V_{CC})	4.5 to 5.5	Volts DC	
Minimum High-Level Input Voltage (V_{IH})	2.0	Volts DC	
Maximum Low-Level Input Voltage (V_{IL})	0.8	Volts DC	
Ambient Operating Range (T_A)	-55C to +125	°C	/1
26LS32 and 26LS33			
Supply Voltage Range (V_{CC})	4.5 to 5.5	Volts DC	
Minimum High-Level Input Voltage (V_{IH})	2.0	Volts DC	
Maximum Low-Level Input Voltage (V_{IL})	0.8	Volts DC	
Ambient Operating Range (T_A)	-55C to +125	°C	/1
Input Hysteresis (V_{HYST})	50	mV Typical	

/1 – Maximum PD, Maximum T_J Are Not to Be Exceeded

TABLE I – ELECTRICAL PERFORMANCE CHARACTERISTICS

Test	Symbol	Conditions -55°C ≤ T _A ≤ +125°C Unless Otherwise Specified	Min	Max	Unit
26LS31					
Output High Voltage	V_{OH}	$V_{CC} = 4.5V, I_{OH} = -20mA$	2.5		V
Output Low Voltage	V_{OL}	$V_{CC} = 4.5V, I_{OH} = 20mA$		0.5	V
Input High Voltage	V_{IH}	$V_{CC} = 4.5V$	2.0		V

QP Semiconductor supports Source Control Drawing (SCD), die sales and custom package development for this product family.

Notes:

This datasheet is informational only, these devices are manufactured to the requirements of the listed Standard Microcircuit Drawings (SMD's or 5962 drawings) and/or JAN Slash Sheets (M38510).

Package outline information and specifications are defined by the listed SMD or JAN drawing and are normally cross referenced in those drawings to Mil-Std-1835 package dimension requirements.

The listed drawings, Mil-PRF-38535, Mil-Std-883 and Mil-Std-1835 are available online at <http://www.dsc.dla.mil/>

Additional information is available at our website <http://www.qpsemi.com>
