2. He / she / they punish(es) the aforementioned state.
3. The penalty takes a form of an actually effective fine.
4. The penalty will be immediately, definitively and irrevocable deduced from the taxes.
5. The penalty entered the implicit criminal record of the punished state.

Explanation

1. The tax money dropout is realized by a short circuit in the loop of employment and consumption.
2. The short circuit is realized through the acquisition of one or more products in the form of a user-controlled technology, Open Source Hardware, Do-It-Yourself Repair, Second Hand product or the like (further only as Alternative Product) .
3. The tax money dropout is realized by the person(s) manufacturing, repairing or acquiring the Alternative Product, or having it manufactured, repaired or acquired, or reduces in another way the taxable money flow.
4. The tax money dropout is caused by the difference between the price of the consumer product and the price of the Alternative Product.
5. The tax revenue drops out in at least 2 (two) points, namely the taxation of employment which is necessary to acquire the required money for the purchase of the consumer product, and taxation of the sale of the consumer product.
6. The tax money dropout is calculated in the receipt below.

Consumer Product	Price [USD]	Total tax rate [%]	Tax [USD]	Alternative Product	Price [USD]	Total tax rate [%]	Tax [USD]	Tax Dropout [USD]
